

Our Mission: Provide outstanding service to our customers...and to those that should be.

The Universal Difference?

1. We save our customers money
2. We build trust and longstanding partnerships
3. Operational excellence driven by seasoned experience

Our capabilities include but are not limited to the following:

Fabrication Services

- American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessels Section VIII, Div. 1
- U.S. Department of Transportation – DOT 407/412 Hazmat Cargo Tanks
- Structural steel fabrications, weldments, ladders and platforms, pipe spools
- Carbon and Stainless Steels

Design Engineering

- Complete Pressure Vessel engineering capabilities
- US DOT 407 and 412 Hazmat Cargo Tank design
- 3D Modeling and 2D Drafting to create accurate and easy to understand fabrication drawings
- API 620/650 design capabilities

Testing and Certifications

- ASME Section VIII, Div. I Boiler and Pressure Vessels
- National Board of Boiler & Pressure Vessels Inspectors NB® Certificate of Authorization
- National Board of Boiler & Pressure Vessels R® Symbol for metallic repairs and alterations
- Department of Transportation (DOT) Registered Inspectors on staff
- AWS Certified Weld Inspectors on staff
- NDE: Hydrostatic, Pneumatic, Radiography, MT, PT, PMI, etc.

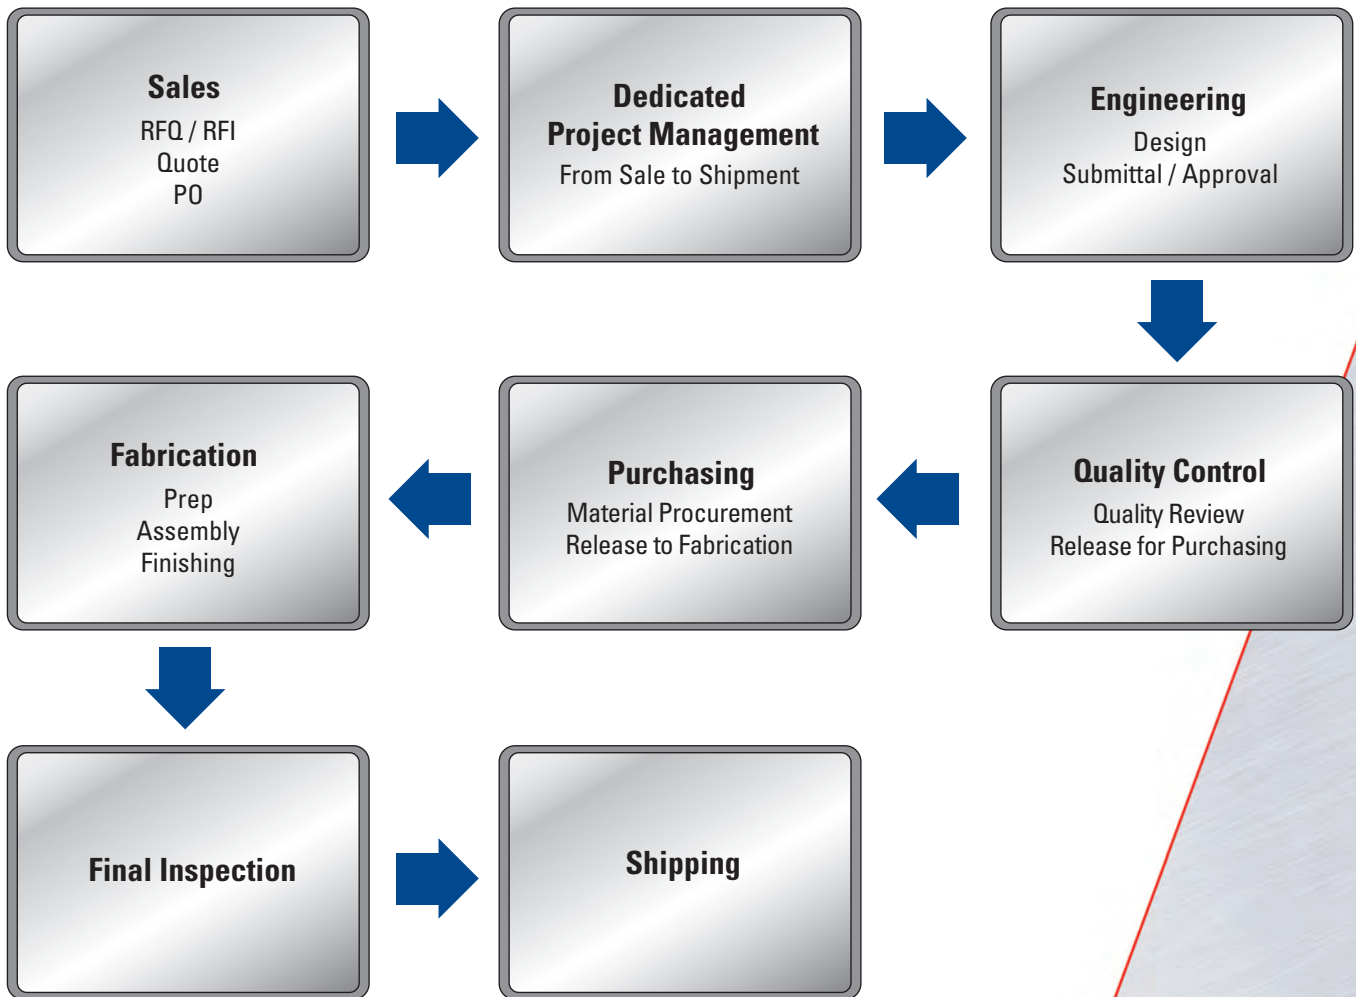

Value-Added Services

- Wide range of lining and coating capabilities
- Dedicated project management from design through completion
- Installation of pumps, filters, strainers, valves, electrical panels, fixtures and connections
- Insulation and jacketing
- Logistics coordination

**We strive for operational excellence by following our proven process on every project.
See the reverse side of this sheet for an overview.**
